Duc Tran

Data Journalist at Tech in Asia (YC W15)
Ho Chi Minh City, Vietnam

Summary

Contact me at duc@techinasia.com

Believing that journalism is a vital everyday product, and technology's power to amplify its impact, I embarked on my journalism career at Zing News (part of Zalo-VNG) following my graduation from FTU and initial roles in marketing and market research. This path led me to discover data journalism, as I believe a data-driven approach enables journalists to deliver more in-depth and insightful stories.

After contributing to three major Vietnamese digital publications, ZNews, Dantri and VnExpress, I now serve as a data journalist at Tech in Asia. My colleagues and I love to provide our readers, primarily founders and venture capitalists, with well-rounded and comprehensive narratives about the Asian tech ecosystem. I always hope my products: data-driven articles can enhance your understanding and help your decision-making.

Additionally, I currently serve as the President of the ABG Alumni Association (2025-2026), which is a volunteer job. In this role, I lead initiatives aimed at fostering learning and collaboration among our members, with the overarching goal of supporting their long-term career growth, personal development.

Experience

Tech in Asia
Data Journalism Lead
December 2024 - Present (1 year 6 months)
Ho Chi Minh City, Vietnam

Open a new world about tech ecosystem, startups and VCs for me.
Compiling and analyzing data, creating visualizations, and performing analyses that users value and pay for.

VnExpress.net

Data Journalist

March 2023 - November 2024 (1 year 9 months)

Ho Chi Minh City, Vietnam

I'm proud of being a pioneer in an innovative team that did something new at the most read Vietnamese newspaper by blending insights, data, and visuals to tell unique stories.

My stories were appreciated (Metro HCMC project and FDI in Vietnam) by newsroom leaders, being mentioned in the annual celebration of VnExpress's 23rd and 24th birthday.

I gathered and examined data, read research papers, interviewed sources to write in-depth articles on various topics like economy, demographics, and technology.

Báo điện tử Dân Trí

Reporter

May 2021 - March 2023 (1 year 11 months)

Ho Chi Minh City, Vietnam

An interesting challenge to be involved in the transformation project at an old-school organization. We transformed the Economy desk, part of the bigger transformation of the newsroom. Learned the change management at an established newsroom.

- Launching new journalistic formats DBiz, which contributed the Economy desk's award "Innovative team of the year" in 2022
- Led the adoption of new data visualization tools such as Flourish, Datawrapper, advocating for their extensive use across the newsroom
- Reporting on breaking news, writing in-depth features, interviews

VNG Corporation

Reporter

October 2018 - May 2021 (2 years 8 months)

Vietnam

Become a journalist without knowing what the job is. Where I learned how to do journalism. Grateful for my colleagues to help me build my foundation.

I reported on finance, banking, and listed companies while also crafting feature stories such as longform, interviews, developed a new series 'Financial

Review'. We focused on amazing angles, multimedia approach to keep young readers engaged.

Buzzmetrics

Research Executive

April 2018 - September 2018 (6 months)

Vietnam

My first full-time job, where I learned how to work.

Analyzed consumer perceptions of major brands like Samsung, Electrolux, and Pernod Ricard across social media and online platforms.

Fashion Group-Central Group Vietnam

Marketing Assistant

June 2017 - November 2017 (6 months)

Fashion Group is a part of Central Group Vietnam. I supported my Marketing Manager in both ATL and BTL marketing activities for SuperSports brand.

Education

Foreign Trade University

Bachelor's degree, International Business Management · (2014 - 2018)

Quốc Học – Huế High School for the Gifted

Specialized in Mathematics · (2011 - 2014)
